Subject: Draft Audit Plan
Date: Tuesday, May 18, 2021 3:45:00 PM

Drew,

I am sharing a draft plan for a regulatory audit of Kairos Power's postulated events for the Hermes test reactor. I ask that you review the draft audit plan and provide feedback on two issues:

1. Does the draft plan contain any proprietary information?
2. Do you understand the scope of the audit and have we identified the correct documents to review?

Until we have verified that the draft plan does not contain proprietary information, we will protect it from public disclosure. The link below will take you to the document in Box.

The final version of the audit plan will be made available to the public.

Thank you,

Stewart Magruder
