Subject: Concerning the Renewal of the NRC License

Discussion: Mr. Jason vonEhr of the NRC contacted Mr. William (Mark) Gessel, RSO, of Triton Construction, Inc. Mr. Gessel had recently submitted a license renewal for the above-quoted NRC license using a Checklist in NUREG-1556, Vol. 17, Rev 1, "Program-Specific Guidance About Special Nuclear Material of Less Than Critical Mass Licensees." While the application included other more relevant information, the inclusion of other commitments that do not normally apply to portable gauge licensees was a concern to Mr. vonEhr. Mr. vonEhr described the issues with including the Vol. 17 checklist and asked Mr. Gessel if he preferred the NRC take what was submitted and prepare a deficiency letter (including ensuring a proper level of management review and signature on the renewal application) or re-submit the application using the correct NUREG-1556 volume. After a discussion of the pros and cons of each potential path forward, Mr. Gessel elected to re-submit the application using the correct NUREG-1556 volume. On that same day, Mr. vonEhr provided Mr. Gessel an email with NUREG-1556, Vol. 1, Rev. 2, attached, as well as stand-alone copies of Appendix A and Appendix B for his convenience.

Action Required: The licensee RSO, Mr. Gessel, will re-submit the renewal application using the provided materials in order to facilitate and more expeditious and efficient review of the license application.
