DO you have anything that says that Nucletron received the device and source?

Hi Tara!

Thanks so much; the attached work order captures both requests. Let me know if that isn't sufficient, and I'll go back to the medical physicist.

Thank you,
Cathy

Subject: NRC amendment request

Good morning Cathy.

Penny just gave me the amendment to remove the old HDR and add Alpha Omega as a sealed source vendor for the Flexitron. Just so no one questions anything down the line, would you provide me with documentation of the Model 106.990's return and confirmation that the last source for the unit was returned as well.

Once I get this information I will be able to get this out to you quickly.

Thanks in advance,

Tara
