Subject: [Non-DoD Source] request for additional information related to the NRC amendment request dated April 8, 2021

Mr. Wyatt / CPT Thomas,

The request list a current address as 2400 21st street, and a proposed change to 6573 Havre de Grace Street, Building 5016

- Is this a change of mailing address only, or is this address included in one of the locations in Item 10? Based on Item 10 it is possible that this address could be under subitem A, or B.
- Is the location at 2400 21st street no longer under this license? If not,
 - o was the building decommissioned and released for unrestricted use?
 - o Did the cessation of activities in the building require reporting pursuant to 10 CFR 30.36(d)?

I have yet to respond to the vendor who noted that the Havre deGrace address is not on your license, because I did not receive any call back or email to my inquire a few days ago, prior to my being assigned this amendment action and learning that you actually want this address added to the license. Please note that the vendor will not be able to send you the requested material until this amendment is issued.

I am teleworking most days and can be reached at the cell phone number. However, I cannot retrieve voice mail messages at the number so if I do not answer, please send an email.

Betsy
