Subject: Acceptance Review: June 3, 2021 Exemption Request from 10 CFR Part 73, Appendix B requirements for Oyster Creek Nuclear Generating Station
Date: Friday, June 11, 2021 12:46:00 AM
Attachments: [image003.png](#)

Andrea,

The staff reviewed the Oyster Creek request for exemption from 10 CFR Part 73, Appendix B, dated June 3, 2021 and have determined that the licensee has provided the necessary information for a review of their submittal. Given the lesser scope and depth of the acceptance review as compared to the detailed technical review, there may be instances in which issues that impact the NRC staff's ability to complete the detailed technical review are identified despite completion of an adequate acceptance review. If additional information is needed, you will be advised by separate correspondence.

The NRC staff will endeavor to complete this review by June 29, 2021. If there are emergent complexities or challenges in our review that would cause changes to the initial forecasted completion date, it will be communicated during the routine interactions. If you have any questions, please contact me.

Pamela Longmire, Ph.D.
