Attachments: Crow Butte Survey - proposal.docx

Ms. Diaz Toro -

Please find attached a proposed Crow Butte license renewal area survey methodology from the OST. The survey proposal was prepared by Tim Mentz as a consultant for OST. The proposal is for discussion / revision and would require approval by the OST in its final version, including an agreement by Cameco to pay the costs incurred by the survey including the contractor's fees and expenses as set forth in the attachment. The OST spiritual advisers have also indicated that they may have to establish an altar on or near the non-disturbed area of the mine site and conduct certain ceremonies over the survey period in order to properly determine the nature and extent of the spiritual interests of the Lakota people in the area. Mr. Mentz would work with them to accomplish that as part of the survey methodology and include that in his report.

Thank you for your patience. We look forward to hearing back from you.

Andrew Reid, JD, LLM

Mr. Reid,

Could you please give us a more definitive idea of when you expect to provide the Tribe's input? The staff would like to get the draft methodology out as soon as possible and wants to be able to consider the Tribe's input before doing so.

Regards,

Diana

Ms. Simon and Ms. Diaz Toro -

A quick update on the status of OST's comments on the elements of a site survey methodology. I am waiting to hear back from Mr. Brings and Mr. Salway who have been working with the OST historians and spiritual advisers on the methodology and would request your indulgence for another day or two. I have received the comments of Mr. Mentz but want to incorporate them as one OST set of comments once I receive the comments from Mr. Brings and Mr. Salway.

Thank you,

Andrew Reid, JD, LLM
