

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION IV
1600 E. LAMAR BLVD
ARLINGTON, TX 76011-4511

June 11, 2021

Marci E. Marot
Chair, Radiation Safety Committee
U.S. Department of the Interior
U.S. Geological Survey
One Denver Federal Center
Bldg 810, ENT E-11, MS-205
Denver, CO 80225

SUBJECT: LICENSE AMENDMENT

Dear Ms. Marot,

Please find enclosed Amendment Number 95 to NRC License Number 05-01399-08, updating License Condition 32, as requested. An environmental assessment for this licensing action is not required since this action is categorically excluded under 10 CFR 51.22(c). You should review this license carefully and be sure that you understand all conditions. You can contact me at 817-200-1590 if you have any questions about this license.

Note that your license and license conditions have been updated. Please review your license and notify this office if you have any discrepancies or questions.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement is not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

M. Marot

-2-

NRC will periodically inspect your radiation safety program. Failure to conduct your program according to NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC may result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available at: www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html.

NRC's Regulatory Issue Summary (RIS) 2005-31, Revision 1, provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through the NRC's Agencywide Documents Access and Management System (ADAMS). The RIS may be located on the NRC Web site at: www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/. Pursuant to NRC's RIS 2005-31, Revision 1, the enclosed materials license will not be made publicly available.

Thank you for your cooperation.

Sincerely,

/RA/

Michelle R. Simmons, Senior Health Physicist
Materials Licensing and Decommissioning Branch
