Dennis,

The requirement is [10 CFR 73.55\(f\)](#), "Target sets." In the last version of the rule we saw, there is no alternative to this requirement. So introducing a new term to replace "target set" would seem to not meet the regulation. Target set is also used in a few other locations – (b)(4) and (i)(5)(vi).

Hi David,

A few logistical items for you:

1. Draft D is posted to [Regulations.gov](#) and is in ADAMS under ML21137A057.
2. I am canceling tomorrow's weekly public meeting (staff has not had a chance to dive into Draft D)
3. The public meeting notice system will take a little while to be updated but know that tomorrow is canceled.
4. I will share the confirming issue of target sets but would you mind sharing the part or section again (to ensure we are on the same page there)?

Thanks
D
