Ms. April Johnson
Director of Operations
Island Heart Care, LLC
75-1027 Henry Street #110
Kailua Kona, HI 96740

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 53-35099-01

By email dated April 30, 2021, you informed the U.S. Nuclear Regulatory Commission (NRC) that Island Heart Care, LLC, wished to terminate NRC radioactive materials license number 53-35099-01. The NRC Form 314 dated April 27, 2021, stated that all radioactive material had been transferred to a licensed entity.

The supporting documentation to the NRC Form 314 provided the most recent leak test result for one sealed source and a final status survey. The leak test result demonstrates no evidence of leakage of radioactive material from the sealed source. In addition, a review of the historical file demonstrates that only licensed materials with a radioactive decay half-life of less than 120 days were possessed by the licensee. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from your facility. The facility located at 75-167 Hualalai Road, Kailua Kona, Hawaii 96740, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation with respect to NRC regulated material is required.

Please find enclosed Amendment No. 1 to License No. 53-35099-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(i) and (ii). You can contact me at 817-200-1189 if you have questions on any of the information stated above.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Roberto J. Torres, M.S., Senior Health Physicist
Materials Licensing and Decommissioning Branch
