LISLE, ILLINOIS 60532-4352

July 7, 2021

Ms. Erin Adamo
Quality Systems Supervisor
South Bend Medical Foundation, Inc.
530 N Lafayette Blvd.
South Bend, IN 46601

SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR SOUTH BEND
MEDICAL FOUNDATION, INC., NRC LICENSE NO. 13-00670-04

Dear Ms. Adamo:

In South Bend Medical Foundation, Inc.'s (your) letter dated April 30, 2021, Erin Adamo, Quality Systems Supervisor (you) requested that the U.S. Nuclear Regulatory Commission (NRC) renew NRC Materials License No. 13-00670-04. In your NRC Form 314, "Certificate of Disposition of Materials," dated July 2, 2021, you notified the NRC of a request to terminate NRC Materials License No. 13-00670-04. Your letters are available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession Nos. ML21123A028 and ML21187A060, respectively.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (10 CFR) 51.22(c).

The NRC staff has reviewed your final status surveys. Based on its review, the NRC staff has concluded that all licensable radioactive material has been removed from the facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions, no further remediation or actions are required with respect to NRC-regulated material. Your facilities are suitable for unrestricted use, and NRC Materials License No. 13-00670-04 is hereby terminated. A copy of the amended license - Amendment No. 37 - is enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

E. Adamo
