Dear Mr. Patterson:

This is in response to the April 26, 2021, letter (Agencywide Documents Access and Management Systems (ADAMS) Accession Number ML21188A217) from Mr. Bryant Hunt, Plant Manager, Honeywell Metropolis Works (Honeywell), submitting the following five individuals for U.S. Nuclear Regulatory Commission (NRC) review and approval as Reviewing Officials:

- Brian Hunt, Plant Manager
- Daniel Bilski, Nuclear Security Manager
- Robert Sanders, Regulatory Affairs Specialist
- Ross Lindberg, Health Physics Supervisor
- Lonnie Artis, Security Operations Supervisor

We have completed our review of your submittal. The NRC staff has determined that the individuals meet the criteria specified in NRC Order EA-07-086, "Order Imposing Fingerprinting and Criminal History Records Check Requirements for Unescorted Access to Radioactive Material or Other Property," dated April 30, 2007. Therefore, the five individuals listed above are authorized to serve as Honeywell's Reviewing Officials.

Reviewing officials must maintain and protect all fingerprints and Federal Bureau of Investigation criminal history records, other related records, and are authorized to grant access to Safeguards Information, as specified in the Orders. Please note that if Honeywell wishes to assign new or additional reviewing officials, the NRC must approve each individual before he/she can act in that position.
