ATTN: Director, Division of Nuclear Materials Safety

RE: NRC Radioactive Materials License No. 06-30556-01, Amendment No. 09:
Completion of License Use at a Temporary Job Site: Aberdeen Proving Grounds Experimental
Facility #9, Building 1179, Aberdeen Proving Ground, Aberdeen, Maryland.

Cabrera Services Inc. (Cabrera) is providing this written that we have completed licensed activities at APG EF#9, Building 1179. The Army Research Laboratory has resumed control of the facility and associated radioactive materials. After a meeting between ARL & NRC staff on May 26, 2021, the facility decided to conduct remaining building renovation-related activities under existing facility license rather than continuing the work under Cabrera's license.

If you should have any questions, please contact me at (352) 610-2150.

Regards,

Michael S. Winters, CHP
Radiation Safety Officer
