

TATA Chemicals

20 Miles West of Green River, P.O Box 551, Green River, Wy 82935

July 1, 2021

Director, Office of Nuclear Material Safety and Safeguards
ATTN: Document Control Desk/GLTS
U.S Nuclear Regulatory Commission
Washington, DC, 20555

Dear Director

Subject: GL-704875-26

Included is the required transfer paperwork applicable to all devices subject to registration and all devices not subject to registration currently covered under GL-704875-26. Our intent is to voluntarily negate, in its entirety, current general license GL-704875-26 issued to Tata Chemicals (Soda Ash Partners) immediately as we have successfully contracted a complete dismantling and disposal of all listed devices.

Please terminate GL-704875-26.

Sincerely,

~~Ty Fraughton~~
