Washington DC 20555-0001

To whom it may concern:

The purpose of this letter and attachments is to update certain information on the 2020 annual registration that was submitted for NRC General License #GL-727340-26.

After submission of the 2020 annual registration for General License #GL-727340-26 an internal audit was conducted. It was determined that 8 meters needed to be added to the registration, and certain information on the registration needs to be updated. The updated 2020 annual registration is attached in Appendix A. The location of the meters is included in Appendix B.

Please note that, after a diligent search of our records, NRC's website, and a request to the distributor, an NRC Form 653 could not be located for two devices: Device S/N 7961-14-01 and S/N 7961-13-70. Therefore, the Initial Transferor Name, Transferor License Number, and Transfer Date for these devices is unknown. Our records show the devices were installed in 2017.

If you should have any questions, please contact myself at 505-320-3201 or email to EEST@chevron.com

Sincerely,

Mr. David Estes

TO: Users of Devices Subject to General License Registration
SUBJECT: ANNUAL REGISTRATION OF GENERALLY LICENSED DEVICES

The U.S. Nuclear Regulatory Commission (NRC) requires annual registration of certain devices that are possessed under the general license issued in Section 31.5 of Title 10 U.S. Code of Federal Regulations (10 CFR 31.5). Devices subject to registration include those containing the radioactive material and activity listed in Table 1 of the attached NRC Form 664. You are receiving this notice because NRC records indicate that you have one or more such devices. Information about the general license registration program is available NRC website:
<http://www.nrc.gov/materials/miaul/general-use/tookit.html>

Note that under 10 CFR 31.5(c)(11), the attached General Licensee Registration Package must be completed, signed, and returned to the NRC within 30 days from the date of this letter. Read all of the instructions prior to completing the package. Mail the completed package in the enclosed envelope to:

Director, Office of Nuclear Material Safety
and Safeguards
ATTN: Document Control Desk/GLTS
U.S. Nuclear Regulatory Commission
Washington DC 20555-0001

Registration Fee: Commission regulations (10 CFR 170.31, Category 3Q) require that you submit a registration fee with each registration on an annual basis. The registration fee is subject to change yearly, and you are required to submit the fee that is in effect as of the date of this letter. An invoice for the current amount due will be sent to you under separate cover. If you have any questions about the fee or the invoice, please contact the License Fee Billing Help Desk at 301-415-7554 or e-mail at fees.resource@nrc.gov.

NRC amended 10 CFR Parts 170.11 and 170.31 to provide that 10 CFR Part 170 fees be assessed to Federal agencies, where applicable, in accordance with the Energy Policy Act of 2005. Therefore, those Federal facilities required to register certain generally licensed devices in their possession will be required to pay the annual registration fee.

Attachment: NRC Form 664 – General Licensee Registration and Instructions

Sincerely,

/RA/
