Hi Omar,

Thank you for checking on how the four meetings went. The meetings all went well. We had great support from the Verizon operator in helping members of the public who attended the meetings to make public comments on the NRC staff's document (the purpose for the four meetings). For the four meetings, a total of nearly 600 individuals attended over the phone line.

Thanks for your support too in setting these meetings and the phone lines up for me.

Jim
