ATTN: MATERIALS LICENSING

July 14, 2021

**Subject: Cancellation of NRC Material License No 13-32212-01**

To Whom It May Concern,

Novartis management has decided to cease operations at our Endocyte facility in West Lafayette, Indiana at the end of this year (2021). Therefore, we are formally requesting termination of our radioactive materials license #13-32212-01.

Since only a small amount of non-volatile radioactive materials were used in our facility, a decommissioning plan is not required per 10 CFR 30.36(g) or 10 CFR 40.42(g). Importantly, all radioactive materials in our facility will be transferred to Bionomics Inc. for proper disposal. Our plan is to clean the lab, including our temporary job site located at 190 S. Russell Street, West Lafayette, Indiana, and perform a closeout survey to ensure there is no radioactive contamination at either facility prior to closure.

Should you have any further questions, please do not hesitate to contact me.

Sincerely yours,

*Le-cun Xu*
