

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 19, 2021

ALL AGREEMENT STATES, CONNECTICUT, INDIANA

NOTIFICATION OF ACCEPTANCE TO THE BRACHYTHERAPY, GAMMA KNIFE AND
OTHER USES (H-313) COURSE (STC-21-048)

Purpose: To provide notification to the States of students selected to attend the U.S. Nuclear Regulatory Commission's (NRC) virtual offering of Brachytherapy, Gamma Knife and Other Uses (H-313) Course scheduled to be held March August 9-13, 2021

Background: The NRC provides funding to the Agreement States for training and the associated travel.

Discussion: Students selected to attend the August 9-13, 2021, virtual offering of the Brachytherapy, Gamma Knife and Other Uses (H-313) Course are provided in Enclosure 1. Please provide this notification to each individual from your program that has been accepted to this course. Detailed guidance for students will be provided at least 2 weeks prior to course start.

INSTRUCTIONS TO STUDENTS

ACCEPTANCE: Individuals listed in Enclosure 1 have been accepted for participation in the virtual offering of the Brachytherapy, Gamma Knife and Other Uses (H-313) course. This course is scheduled to be presented August 9-13, 2021, provided by instructors from the Advanced Health Education Center (AHEC).

COURSE: Please see our Web site, <https://scp.nrc.gov/training.html> for the Tentative Course Schedule and note that the course begins at 8:00 a.m. eastern time on Monday, August 9th, and ends at 12 p.m. eastern time local time on Friday, August 13th.

All course materials will be located on a course website in the NRC's [Collaborative Learning Environment](#) (CLE). Students will be notified when the course materials are posted in the CLE and given instructions on how to access them at that time.

Course lectures will be delivered virtually, each session of the course, students will be required to confirm connectivity before each session begins and interact with the course instructors throughout the day. It is highly recommended that the students plan to display the course presentations on the largest screen/monitor available, but the course will be accessible via any device (smartphone, tablet, laptop, etc.) with internet access. A webcam is not required, but each student must be able to communicate with the course instructors via a headset with a mic or via the mic on their device. Course materials will be available electronically only (i.e., no hardcopies will be mailed to the students), but can be printed, if so desired.

Further instructions on how to access the course materials and how the virtual course will be accessed each day will be sent by the NRC's Course Manager and/or the course contractor a couple of weeks before the course begins.

Specific questions about the virtual course can be sent directly to the NRC's Course Manager, Henry Lynn (henry.lynn@nrc.gov).
