Subject: Draft Safety Evaluation Report for S&L QA Plan
Date: Tuesday, August 31, 2021 5:21:41 PM

Mr. Randall L. Kurtz
Quality Assurance Director
Sargent and Lundy
55 East Monroe
Chicago, Illinois 60603-5780

Dear Mr. Kurtz:

By letter dated [Month Day, 20XX] (Agencywide Documents Access and Management System (ADAMS) Accession No. ML21033A786) Sargent and Lundy (S&L) submitted for U.S. Nuclear Regulatory Commission (NRC) staff's review Revision 26 of SL-TR-1, "Quality Assurance Program." Based on its review of the information, the NRC staff finds SL-TR-1, Revision 26 acceptable for referencing subject to the limitations specified in the SL-TR-1, Revision 26, and in the NRC safety evaluation (SE).

A copy of the draft SE has been placed in the box.com folder. You have been given access to the folder. The draft SE is being provided for a proprietary information review. If S&L provides comments on other areas, the NRC staff will exercise its discretion on whether to address those comments.

If you believe that any information in the draft SE is proprietary, please identify such information line-by-line and define the basis pursuant to the criteria of Section 2.390 of Title 10 of the Code of Federal Regulations. Use double brackets and yellow highlight to identify any [[**proprietary information**]]. After 10 working days, the draft SE will be made publicly available, if appropriate.

Your response must be via a letter from an authorized individual. In addition, please provide an electronic redline/strikeout Word version of the SE either via email or the box.com folder. It helps expedite the NRC staff's response to comments if S&L provides in the formal transmittal and in a separate Word file, a table with the following columns; Comment No., Page No., and Line No., Comment Type (if comments other than proprietary information are provide, i.e., clarity, accuracy), Suggested Revision, and a blank column NRC Disposition. However, S&L may provide its comments in any format it chooses. The final SE will be issued after making any necessary changes.

Note that at this stage of the process, the NRC staff has completed its review of the submitted information and will not entertain technical arguments. The staff's conclusions and conditions will not change unless new information is provided that was not available during our review. If S&L would like to discuss the draft SE in detail, we can do that in a noticed meeting that can be closed if proprietary information will be discussed.

Both this email and the draft SE have been placed in ADAMS and made "Official Agency Records." The draft SE is declared as nonpublic because it may contain proprietary information. This email is

declared public.

If you have any questions, please feel free to contact me at jjh1@nrc.gov.

Joe Holonich, Senior Project Manager
Licensing Projects Branch
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
