Dear Sir or Madam:

IOM Health System, LP d/b/a Lutheran Hospital of Indiana would like to amend its NRC Byproduct Materials License, Number 13-01535-01, to add authorization for Saad M. Ibrahim, M.D. to perform 35.1000 yttrium-90 procedures with the TheraSphere delivery system. Dr. Ibrahim is currently listed on our license as a 35.1000 user of the yttrium-90 SIR-Spheres delivery system. We are requesting conditional approval as a TheraSphere user while he completes his three hands-on case studies with an Authorized User of the TheraSphere delivery system, as described in Yttrium-90 Microsphere Licensing Guidance Rev 10.1. Once the hands-on cases are completed, case logs will be provided to the NRC as well as a written attestation from the AU providing the training.

If there are any questions concerning this license amendment, please contact our nuclear medicine physicist, Mr. Bryce A. Caudle, M.S., DABSNM at 317-443-9035, or by email at bcaudle@mpcphysics.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Bryce A. Caudle".
