RE: Advance Testing Company License No. 31-31284-01

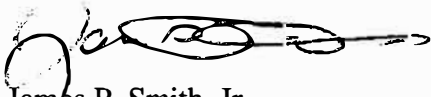

To whom it may concern,

In accordance with our conversation on July 21, 2021, Advance Testing would like to withdraw the amendment request dated June 4, 2021. Advance Testing's authorized device models (i.e. Troxler Electronic Laboratories Models 4640 and 3400 series and InstroTek, Inc. Model 3500 series) all allow for a 12 month leak test frequency per their certificates of registration and therefor no amendment is necessary at this time

Thank you for your cooperation in this matter.

If you have any questions or require additional information, please feel free to contact me at your convenience.

Sincerely,

James P. Smith, Jr.
President
Advance Testing Company, Inc.
