SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR HORNER &  
SHIFRIN, INC., U.S. NRC MATERIALS LICENSE NO. 24-26673-03

Dear Mr. Richardson:

In the NRC Form 314 "Certificate of Disposition of Materials" dated March 26, 2021 and the letter dated June 14, 2021, you notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 24-26673-03.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (CFR) Section 51.22(c).

Your requests identified that all licensed radioactive materials have been appropriately transferred for disposal. Documentation of the transfer/disposal of radioactive materials was reviewed.

Based on this review, it appears that all licensable radioactive material has been removed from the facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on this conclusion, no further remediation or actions are required with respect to NRC-regulated material. Your facility is suitable for unrestricted use, and NRC Materials License No. 24-26673-03 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

I. Richardson
