

Comments on Draft Safety Evaluation for AMS Topical Report Revision 1 and NRC Disposition

COMMENT NO.	PAGE NO.	LINE NO.	COMMENT TYPE	SUGGESTED REVISION	NRC DISPOSITION
1	5	33	Clarification	Change "...using a noise analysis..." to "...using the OLM-Noise Analysis... "	Agree with the proposed change—Revision Incorporated
2	6	10	Clarification	Change "...calibration or response." to "...calibration or response time. "	Agree with the proposed change—Revision Incorporated
3	6	24	Clarification	Change "...applying OLM techniques." to "...applying OLM-Drift Monitoring techniques."	Agree with the proposed change—Revision Incorporated
4	6	25	Clarification	Change "...not detectable by OLM were..." to "...not detectable by OLM-Drift Monitoring were..."	Agree with the proposed change—Revision Incorporated
5	7	3	Clarification	Change "...OLM program would..." to "... OLM-Drift Monitoring program would..."	Agree with the proposed change—Revision Incorporated
6	7	6	Clarification	Change "...using the noise..." to "...using the OLM-Noise Analysis... "	Agree with the proposed change—Revision Incorporated
7	7	6	Clarification	Change "...in addition to monitoring for drift." to "...in addition to OLM-Drift Monitoring. "	Agree with the proposed change—Revision Incorporated
8	7	11	Clarification	Change "The OLM processes..." to "The OLM-Drift Monitoring processes..."	Agree with the proposed change—Revision Incorporated
9	7	16	Clarification	Change "...OLM dynamic analysis techniques..." to "... OLM-Noise Analysis techniques..."	Agree with the proposed change—Revision Incorporated
10	7	18	Clarification	Change "These dynamic analysis techniques..." to "These OLM-Noise Analysis techniques..."	Agree with the proposed change—Revision Incorporated
11	7	33	Clarification	Change "...OLM TR program in Section 11.3..." to "... OLM-Noise Analysis technique in Section 11.3..."	Disagree with the proposed change—Revision not incorporated. Sentence re-worded to make it clear that the licensee's technical basis for eliminating periodic response time testing needs to properly credit/address the incorporation of both the drift monitoring process and the noise analysis technique.
12	8	35	Correction	Change "Chapter 12..." to "Chapter 13... "	Agree with the proposed change—Revision Incorporated
13	8	48	Correction	Change "Chapter 12..." to "Chapter 13... "	Agree with the proposed change—Revision Incorporated
14	9	20	Correction	Change "...Chapter 12..." to "...Chapter 15... "	Agree with the proposed change—Revision Incorporated

COMMENT NO.	PAGE NO.	LINE NO.	COMMENT TYPE	SUGGESTED REVISION	NRC DISPOSITION
15	15	33	Correction	Change the reference to the report that contains comparisons of manual and OLM results that are referred to in the TR and SE. NUREG/CR-6895 does not include the referenced information.	Agree with the proposed change—Revision Incorporated
