On June 16, 2021, the U.S. Nuclear Regulatory Commission (NRC) held a two-part public webinar to discuss the NRC's assessment of the safety performance at operating facilities located in Pennsylvania, Maryland, New Jersey, and New York for 2020. During the first part of the webinar, the NRC staff presented the Agency's assessment of the safety performance at each facility for the period of January 1, 2020 through December 31, 2020, as described in the annual assessment letters for each site. The second part of the webinar provided members of the public the opportunity to submit questions verbally or in writing regarding topics discussed during the first part of the webinar and the NRC's role in ensuring safe plant operations. Members of the public, State officials, elected officials or their staff, and members of the media participated in the meeting.

Enclosure 1 is a complete list of those who participated in the webinar, which was led by Jonathan Greives (Branch Chief, Division of Operating Reactor Safety), Brice Bickett (Branch Chief, Division of Operating Reactor Safety,) and Erin Carfang (Branch Chief, Division of Operating Reactor Safety).
