Subject: Docket No. 50-482: Revision of Two Procedures that Implement the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

Commissioners and Staff:

In accordance with 10 CFR 50.54(q)(5), WCGS is submitting a change to the emergency plan. Two procedures that implement the WCGS RERP have been revised. The revised documents are identified below:

<u>Procedures</u>	<u>Effective Dates</u>
AP 06-004, Rev. 10A	July 1, 2021
EPP 06-006, Rev. 10A	July 1, 2021

The attached summary of the changes to the implementing procedures explain that these changes do not reduce the effectiveness of the WCGS RERP.

This letter contains no commitments. If you have any questions concerning this matter, please contact me at (620) 364-4204.

Sincerely,

A handwritten signature in black ink that reads "Ron Benham".

### **Summary of Changes to Two Procedures that Implement the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)**

1. Procedure, AP 06-004, "Equipment Important to Emergency Response," Rev. 10A

Procedure AP 06-004 is being corrected to add the omitted SDRE0033 and SDRE0034 radiation monitors. Radiation monitor SDRE0033, Control Room Rad Hi Monitor, and SDRE0034, Cask Handling Area Rad Hi, were inadvertently removed from AP 06-004, Rev 9 during the implementation of the NEI 99-01, Rev 6 emergency classification levels (EALs). Other changes include minor wording changes to provide clarification, organizational or title changes, grammatical and typographical errors.

The change does not reduce the effectiveness of the Emergency Plan.

2. Procedure, EPP 06-006, "Protective Action Recommendations," Rev. 10A

Procedure EPP 06-006 is being changed to incorporate changes that are administrative in nature. These changes are being made to update a previously approved organization title change and minor wording step to provide consistency within the procedure.

The change does not reduce the effectiveness of the Emergency Plan.
