Subject: [External_Sender] Response to Conversation related to Graded Drill Exemption
Date: Thursday, July 29, 2021 3:30:23 PM

Mr. Tiktinski,

In response to our conversation that provided clarifications for the Honeywell response, Honeywell considers due to rising cases of the Delta variant of Covid, the low vaccination rates in the area (~20%), and the potential to expose employees and EMS responders are the basis for the exemption for conducting the 2021 graded drill.

Regards,

Sean Patterson
