SUBJECT: DUANE ARNOLD ENERGY CENTER – THIRD NOTICE TO EXTEND THE COMMENT PERIOD RELATED TO THE POST-SHUTDOWN DECOMMISSIONING ACTIVITIES REPORT AND SITE-SPECIFIC DECOMMISSIONING COST ESTIMATE (EPID L-2020-LLL-0005)

Dear Mr. Coffey:

Enclosed is a copy of a third *Federal Register* notice extending the comment period for the post-shutdown decommissioning activities report (PSDAR), including the site-specific decommissioning cost estimate (DCE), for the Duane Arnold Energy Center (DAEC). This notice is scheduled to publish on August 9, 2021.

On April 2, 2020, NextEra Energy Duane Arnold, LLC (the licensee), submitted a letter containing the DAEC PSDAR, which included the DCE (Agencywide Documents Access and Management System [ADAMS] Accession No. ML20094F603). In a *Federal Register* notice dated June 19, 2020 (85 FR 37116), the U.S. Nuclear Regulatory Commission (NRC) informed the public of a meeting to be held on July 28, 2020, to discuss and accept comments on the DAEC PSDAR and DCE. Due to travel restrictions associated with the Coronavirus Disease 2019 (COVID-19) public health emergency (PHE), this meeting was postponed.

The DAEC PSDAR public comment period closed on October 19, 2020, was reopened on October 26, 2020, closed again on February 19, 2021, was reopened on March 5, 2021, and will currently close on August 19, 2021. Section 50.82(a)(4)(ii) of Title 10 of the *Code of Federal Regulations* (10 CFR) requires that the NRC conduct a PSDAR public meeting in the vicinity of a decommissioning licensee's facility. The NRC will hold a public meeting to discuss the DAEC PSDAR's content and receive comments once conditions associated with the COVID-19 PHE support in-person meetings. As such, given the current PHE conditions, the NRC has decided to extend the DAEC PSDAR and DCE public comment period for a third time until December 20, 2021, and will consider further extensions as the PHE conditions warrant. This will also allow more time for members of the public to develop and submit comments.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

A copy of the *Federal Register* notice is enclosed. If you have any questions, please contact me at 301-415-3178, or by e-mail at marlayna.doell@nrc.com.

Sincerely,

Signed by Doell, Marlayna

Post-Shutdown Decommissioning Activities Report

AGENCY: Nuclear Regulatory Commission.

ACTION: Extension of comment period.

SUMMARY: On June 19, 2020, the U.S. Nuclear Regulatory Commission (NRC) solicited comments on the post-shutdown decommissioning activities report (PSDAR) for the Duane Arnold Energy Center (DAEC). The PSDAR, which includes the site-specific decommissioning cost estimate (DCE), provides an overview of NextEra Energy Duane Arnold, LLC's (NEDA or the licensee's) planned decommissioning activities, schedule, projected costs, and environmental impacts for DAEC. The public comment period closed on October 19, 2020, was reopened on October 26, 2020, closed again on February 19, 2021, was reopened on March 5, 2021, and will currently close on August 19, 2021. The NRC has decided to extend the public comment period for a third time to provide additional time for members of the public to develop and submit their comments, as well as to allow time for an in-person public meeting on the PSDAR. The NRC will hold a public meeting to discuss the PSDAR's content and receive comments once restrictions associated with the Coronavirus Disease 2019 public health emergency are lifted, and will notice this meeting in a separate *Federal Register* notice.

DATES: The comment period for the document published on June 19, 2020 (85 FR 37116) has been extended. Comments should be filed no later than December 20, 2021. Comments received after this date will be considered, if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

II. Discussion

On June 19, 2020, the NRC solicited comments on the PSDAR dated April 2, 2020, including the site-specific DCE for DAEC (ADAMS Accession No. ML20094F603). The purpose of the original *Federal Register* notice (85 FR 37116; June 19, 2020) was to inform the public of a meeting to discuss and accept comments on the PSDAR and DCE. The public comment period closed on October 19, 2020, was reopened on October 26, 2020 (85 FR 67780), to account for the restrictions associated with the Coronavirus Disease 2019 public health emergency, closed again on February 19, 2021, was reopened on March 5, 2021 (86 FR 12990), and will currently close on August 19, 2021.

The NRC has decided to once again extend the public comment period on this document until December 20, 2021, to provide additional time for members of the public to develop and submit their comments, as well as to allow time for an in-person public meeting on the DAEC PSDAR. The NRC will hold a public meeting to discuss the PSDAR's content and receive comments once restrictions associated with the Coronavirus Disease 2019 public health emergency are lifted. Members of the public interested in attending this meeting should monitor the NRC's Public Meeting Schedule Website at <https://www.nrc.gov/pmns/mtg> for additional information.
