## Amendment to Annual Exempt Distribution Reports

Attn: Document Control Desk/Exempt Distribution  
Director, Office of Nuclear Material Safety and Safeguards  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

RE: Amendment to Annual Exempt Distribution Reports 2014, 2015, 2016, and 2018

Dear Director,

The following is an amendment for our 2014, 2015, 2016, and 2018 exempt distribution reports for our exempt distribution License No. 45-23855-01E. During our current inspection we learned these reports had incorrect exempt distribution reporting. The following calendar year reports must be amended to "0".

- CY2014 Report, dated February 10, 2015 (ADAMS Accession Number ML15054A127)
- CY2015 Report, dated March 28, 2016 (ADAMS Accession Number ML16083A097)
- CY2016 Report, dated January 30, 2017 (ADAMS Accession Number ML17034A377)
- CY2018 Report, dated January 31, 2019 (ADAMS Accession Number ML19038A070)

All the tritium distributed in each of the reports were for international distribution only and therefore not reportable under 10 CFR 32.25. At the time of these reports, it was understood all tritium shipped (domestic and international) was to be reported in the Exempt Distribution Report.

If there are any questions, please contact me by phone at (757) 821-1089 extension 107 or by email at C.WHEATON@KRISS-USA.COM.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Wheaton", written over a horizontal line.

Chris Wheaton  
Director of Engineering
