

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

August 4, 2021

SECRETARY

MEMORANDUM TO: Margaret M. Doane  
Executive Director for Operations

FROM: Annette L. Vietti-Cook, Secretary

SUBJECT: STAFF REQUIREMENTS – SECY-19-0095 –  
DISCONTINUATION OF RULEMAKING—ENHANCED  
SECURITY OF SPECIAL NUCLEAR MATERIAL

The Commission has disapproved staff's recommendation to discontinue the special nuclear material (SNM) security requirements rulemaking. Before deciding whether and how to proceed with this rulemaking, the Commission would benefit from a staff analysis of more options for the scope of the rule and the potential regulatory, resource, and timing impacts of those options. Therefore, the staff should provide the Commission a notation vote paper with a full range of options.
