Subject: [External_Sender] Re: Pending NRC License Amendment Request - Union Hospital - Clarification Required

Hi Laura,

I'm writing to confirm that Dr. Nuffer's authorizations should be limited to 10 CFR 35.100, 35.200, and 35.300 (limited to oral administration of sodium iodide I-131).

Thanks,

Will

Subject: Pending NRC License Amendment Request - Union Hospital - Clarification Required

Hello Mr. Breeden,

Thank you for taking time out of your morning to discuss your pending license amendment request for Union Hospital to name Dr. Zachary Nuffer as an Authorized User for 10 CFR 35.100, 35.200, and 35.300.

A letter verifying Dr. Nuffer's board certificate qualifications was provided in support of this amendment request, but the NRC does not accept the ABR – Diagnostic Radiology board certificate for all uses listed under 10 CFR 35.300. Instead, the qualifications provided limit Dr. Nuffer to authorization under 10 CFR 35.392 and 35.394 for the oral administration of sodium iodide I-131, but excludes parenteral administrations of licensed material as permitted by 10 CFR 35.396.

Please respond confirming if Dr. Nuffer's authorizations should be limited to 10 CFR 35.100, 35.200, and 35.300 (limited to oral administration of sodium iodide I-131). If the full authorization for 10 CFR 35.300 is requested please provide additional training and experience documentation relating to parenteral administration of licensed material per the requirements of 10 CFR 35.390.

Thank you,
Laura
