**Subject:** ACTION: Opportunity to comment on the renewal of OMB approval for an existing collection of information NRC Online Form, "Request for Alternatives" (3150-0244)

This email has been directed to you as a past participant to web-based relief requests user acceptance testing.

The Nuclear Regulatory Commission recently published a Federal Register Notice announcing our intent to submit an information collection request to the Office of Management and Budget (OMB) for NRC Online Form, "Request for Alternatives." A supporting statement describing the requested information and burden estimates are available at <http://regulations.gov> by searching docket NRC-2021-0055.

As a potential respondent to this information collection, we are interested in your feedback. Specifically, we are seeking input on the following questions by August 31, 2021:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Comments can be submitted by going to <http://www.regulations.gov> and searching for Docket No. NRC-2021-0055. Please note that comments will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

Regards,

Jason Drake  
Project Manager
