Hi Mr. Phillips,

As we discussed on the phone today during the exit meeting, no violations were identified during Mr. Ragland's inspection, and I have attached the inspection report.

After my Branch Chief signs this report, I will make it a publicly available safety record for review in the NRC's Agencywide Documents Access and Management System ([ADAMS](#)) online database. You may keep this copy for your records, I would appreciate an email back to confirm receipt.

For the license amendment request, double check the form to ensure all is correct, sign and date it, and then snail mail it to the highlighted address in Washington DC, that is the best way to submit that request.

Please let me know if you have any questions.
