Dr. Hatcher,

Thank you for providing this information.

Please provide a revised Delegation of Authority. The document 2021-DOA-05 refers to 10 CFR Part 35, which is applicable only to medical licenses authorized for human use of licensed materials. Your licenses are under 10 CFR Parts 30 (both licenses) and 33 (Type A license of broad scope) and the duties and responsibilities of the radiation safety officer are included in the commitments made in the letters listed in the last condition of each of your licenses. The descriptions and authorities of medical license RSOs in Part 35 are not applicable to your licenses.

Thanks,  
Betsy

Hello Betsy,

We are finalizing the paperwork and should be able to get everything to you this week.

Sorry for the delay.

Regards,  
Brandon

Dr. Hatcher,

I was assigned the action for your letter informing us of the RSO's retirement and that the Chair of the Radiation Safety Committee is appointed as the interim RSO. Please let me know the name of the Chair of the RSC so that we can amend the license to name that person as RSO until a permanent RSO is found.

If you already submitted information for a permanent RSO (your letter stated that you intended to provide us more information), please let me know. It is possible that new incoming correspondence has not been processed yet.

Thank you very much,  
Betsy
