Dear Mr. Harvey:

This letter refers to an investigation conducted by the U.S. Nuclear Regulatory Commission (NRC), Office of Investigations (OI) to determine if senior management at Invensys Systems, Incorporated/Schneider Electric in Lake Forest, California (1) willfully failed to perform commercial grade dedication of the safety-related video display unit (SVDU) and (2) willfully failed to report defects related to the SVDU. Based on the evidence developed during the OI investigation, the NRC could not substantiate that wrongdoing occurred.

Please note that the complete OI investigation report, including supporting documentation, may be obtained by you and the public under the Freedom of Information Act (FOIA), subject to redaction of information pursuant to the FOIA. Requests under the FOIA should be made in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 9.23, "Requests for Records." The instructions for making a request of information under the FOIA are accessible at <http://www.nrc.gov/reading-rm/foia/foia-privacy.html>.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter, and your response, if any, will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
