July 27, 2021

James Smith, Jr., President  
Advance Testing Company, Inc.  
3348 Route 208  
Campbell Hall, NY 10916

**SUBJECT: WITHDRAWAL OF AMENDMENT REQUEST DATED JUNE 4, 2021 FOR  
ADVANCE TESTING COMPANY, INC., NRC LICENSE NO. 31-31284-01, MAIL  
CONTROL NO. 627315**

Dear Mr. Smith:

This letter concerns the subject request to amend your U.S. Nuclear Regulatory Commission (NRC) license No. 31-31284-01. You have requested to amend license condition 13.A to allow for leak tests to be conducted at 12-month intervals for the portable gauge models currently authorized on your license. Your request is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML21201A110.

As discussed during our telephone conversation on July 21, 2021, we have determined that your license currently authorizes the requested activity such that an amendment to the license to authorize the activity is unnecessary. Specifically, the registration certificates for each model currently authorized on your license authorizes leak test frequencies of 12 months. In accordance with our communication and in accordance with your letter (ML21208A017) dated July 21, 2021, we have noted that you have confirmed that the license amendment request should be withdrawn. Therefore, the referenced request has been administratively closed.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at 610-337-5170 or [Jonathan.Pfingsten@nrc.gov](mailto:Jonathan.Pfingsten@nrc.gov).

J. Smith
