Subject: Concerning the Renewal Application for NRC Materials License

Discussion: Mr. vonEhr reached out to Mr. Palilla concerning his renewal application and the NRC's draft Request for Additional Information (RAI). Mr. vonEhr discussed the RAI items to ensure Mr. Palilla's understanding and answer any immediate questions. In reference to RAI Item No. 1, concerning the Renewal Application's absence of a request regarding the current-license authorization for a Seaman Model C-300, Mr. Palilla explained that the licensee has never possessed such a gauge, but used the authorization once to assist a client in preparing a gauge for return to the manufacturer (i.e. which did not require the licensee take possession of the gauge). As such, Mr. vonEhr, in consultation with the second-reviewer, Ms. Betsy Ullrich, revised the draft RAI in response to acknowledge that the authorization would be removed on the renewed license and no further information would be required to be submitted by the licensee in response.

ACTION: the draft RAI was signed after the phone call with the revision to Item No. 1 to the RAI as described above.
