Hello Ann,

Thank you for your prompt response. Can you please provide a signed and dated statement confirming that the training completed by Robert Halford and Michael Snyder on June 10th, 2020 included hands-on training on device operation, safety procedures, clinical use, and operation of a treatment planning system for the Icon? It was not clear to me from the information provided what topics were included in the "Safety Training and Emergency Training"

Additionally, as Mr. Halford and Dr. Snyder have previous experience as AMP's for other types of gamma stereotactic radiosurgery units please also confirm that the training in the above listed topics discussed differences between the Leksell Icon and other gsr systems that have been used in the past in accordance with 10 CFR 35.51(c) and the NRC 35.1000 Licensing Guidance for the Leksell Gamma Knife – Icon.

Please reach out to me with any questions.

Thank you,
Laura

Good Morning Laura,
I have received the request and am working on the response. Unfortunately, this is prime vacation time and getting signatures from folks is a bit more difficult. I am desperately trying to get everything pulled together by Friday but am not sure it will happen. I hope this does not present too much of a problem. I am working part time at this point and you can always reach me on cell phone (248 561-8516) or home email annmaitz@comcast.net.
