Steve,

We ended up need to make a few more edits than anticipated, but the results should be consistent with what was proposed at the public meeting.

Please share and review with the other TRTR folks supporting this document.

I will schedule a call, early during the week of July 19th. This will not be scheduled as a Public Meeting. We can have a high level discussion regarding the acceptability of the proposed edits and decide at that time if we need to schedule another Public Meeting prior to the formal review.

Thanks,
Patrick
