James,

Please provide me with any other medical licenses (i.e. nuclear medicine or medical therapy facilities) in any Agreement States owned/operated by Trinity Health New England. Or, alternatively provide me with a corporate diagram showing connections with Trinity Health, which possess a number of medical facilities in NRC jurisdiction.

Regards,

Bob

Great thanks Robert for the update. Yes I added the other email address I have for him as well.

Thank you,
James

I received a email that Greg Hisel's message failed to send, did everyone else get it?

As I discussed with Dr. Sappington this morning, I have been working on the necessary documentation and will be ready to approve the change of control once the public comment period ends (assuming we do not receive comments from the public). Further, I asked him to provide me with any other medical radioactive materials licenses held by Trinity Health of New England, such as licenses in Agreement States.

Thanks Robert. I am also including Greg Hisel here regarding other THOfNE licenses issued by the NRC.

Can we expect to receive notice that the change of control is approved and effective 9/6? Since the machine has not been used there are patients that were cancelled and need to be rescheduled as well nuclear tech coverage coordination that we want to be proactive about. Please let us know.

Thank you!
James

Good Morning,

I have been informed that there was a delay in posting notices on the NRC public website due to some IT issues. The notice for this change of control was posted on August 5 and will remain until removed on September 6, 2021.

Does Trinity Health of New England possess any other licenses issued by the NRC or any Agreement State (for example Massachusetts, New Hampshire, Maine, Vermont, etc.)?

Good Morning,

I received the letter dated July 22, 2021, from Dr. Sappington regarding the change of control. I will be sending the letter, once it has been processed by our Licensing Assistance Team, for posting on the NRC public website for public comment in accordance with 10 CFR 2.130. The posting must remain for 30 days to allow public comment. Pursuant to 10 CFR 30.34(b) the transfer may not close until the NRC gives its approval in writing.

Importance: High

Dr. Sappington and Mr. Gildea,

I will be sending a request for additional information regarding this change of control, however I want to inform you that our regulations state:

§ 30.34 Terms and conditions of licenses

(a) Each license issued pursuant to the regulations in this part and the regulations in parts 31 through 36 and 39 of this chapter shall be subject to all the provisions of the Act, now or hereafter in effect, and to all valid rules, regulations and orders of the Commission.

(b)(1) No license issued or granted pursuant to the regulations in this part and parts 31 through 36, and 39 nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall, after securing full information, find that the transfer is in accordance with the provisions of the Act and shall give its consent in writing.

In addition to this regulation we are required to post the change of control (which we do not have yet from the licensee, Dr. Sappington) for 30 days for public comment. Do not close the transfer of control prior to receiving our written consent or you will be in violation of 10 CFR 30.34 (b)(1).

Please review 10 CFR 30.34 and provide all relevant information to my attention.

Hi Robert,

The change of control will be effective 8/3/21 but wanted to put the ball in motion. Please let us know if additional information is needed.

Thank you,

James

Good Morning;

You recently sent an email (7/8/2021) to PDR.Resource@nrc.gov requesting we change the licensee on NRC Materials License No. 06-30814-01, issued to Joseph B. Sappington, M.D. Has this change of control been completed?
