Document Control Desk  
Washington, DC 20555

Reference: Oregon State University TRIGA Reactor (OSTR)  
Docket No. 50-243, License No. R-106

Subject: License Amendment Request to Revise Requalification Plan for Licensed Operators

Commission:

This letter serves as a request for a license amendment for the purpose of revising the existing OSTR Requalification Plan for Licensed Operators. We are requesting a number of non-substantive changes, mostly involving grammar and format changes, as well as some incorrect CFR citations. These changes are intended to align our requalification plan with the requirements given in 10 CFR 55.59.

These proposed changes are provided in Attachment A. Additionally, the proposed final form ("clean copy") can be found in Attachment B and the proposed final form of the Requalification Plan identifying the location of specific changes can be found in Attachment C.

I hereby affirm, state, and declare under penalty of perjury that the foregoing is true and correct.

Executed on: 8/24/21

If you have any questions, please do not hesitate to contact me.

Sincerely,

Dr. Steve Reese  
Director
