

August 23, 2021

Theresa Clark, Deputy Director
Division of Materials Safety, Security, State,
and Tribal Programs
Office of Nuclear Material Safety
and Safeguards
U.S. Nuclear Regulatory Commission
T8-E18
Washington, D.C. 20555-0001

Dear Ms. Clark:

Enclosed is a copy of the final revisions to the Colorado Rules and Regulations Pertaining to Radiation Control, 6 CCR 1007-1:

- Part 16 (Radiation safety requirements for well logging and subsurface tracer studies);
- Part 19 (Licenses and radiation safety requirements for irradiators); and
- Part 5 (Radiation safety requirements for industrial radiographic operations).

The Part 16 and Part 19 rules were adopted by the Colorado Board of Health on May 19, 2021 and became effective July 15, 2021, and the Part 5 rule was adopted June 16, 2021 and became effective August 14, 2021.

These adopted, final rules incorporate the following NRC Regulatory Action Tracking System (RATS) items:

RATS ID	TITLE	STATE SECTION 6 CCR 1007-1
2020-1 (10 CFR Part 39.65)	Individual Monitoring Devices	Part 16
2020-1 (10 CFR Part 36.55)	Individual Monitoring Devices	Part 19
2020-1 (10 CFR Part 34.47, and 34.83)	Individual Monitoring Devices	Part 5

We believe that adoption of these final regulations satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, for Colorado’s equivalent regulations.

To aid in the review of these final regulations, we have also enclosed an annotated copy of RATS 2020-1 which identifies each specific section in Colorado rule corresponding to the amended federal rule change, along with the redline regulations as presented to and adopted by the Colorado Board of Health.
