Dear Ms. Sterdis:

Enclosed is the Quality Assurance Program (QAP) Approval for Radioactive Material Packages No. 0240, Revision No. 13, in response to your letter dated June 22, 2021 (ADAMS Accession No. ML21173A252). The revised NRC Form 311 reflects transfer of the licenses and QAP approvals associated with the transfer of ownership of Indian Point Units 1, 2 and 3 from Entergy to HDI as documented in References 1-4.

This Approval satisfies the requirements of Title 10 of the *Code of Federal Regulations* (10 CFR), Part 71.17(b) and 71.101(f) for a QAP approved by the U.S. NRC.

Termination of your materials license does not cause this approval to be automatically terminated. If you wish to renew, amend, or terminate this approval, please request it in writing.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved packaging, you must be registered for use of that packaging with NRC. Registration for use of NRC-approved packagings should be made pursuant to 10 CFR 71.17(c)(3).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at 301-502-2242 or Aaron Thomlinson at 830-255-0994.

Sincerely,

F. Paul Peduzzi, Chief
Inspection and Oversight Branch
Division of Fuel Management
Office of Nuclear Material Safety
and Safeguards
