SUBJECT: WOLF CREEK GENERATING STATION, UNIT 1 – CORRECTION TO
ISSUANCE OF AMENDMENT NO. 229 RE: CHANGE TO OWNER LICENSEE
NAMES (EPID L-2020-LLA-0248)

Dear Mr. Reasoner:

By letter dated July 20, 2021 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML21095A192), the U.S. Nuclear Regulatory Commission (NRC) issued Amendment No. 229 to Renewed Facility Operating License (RFOL) No. NPF-42 for the Wolf Creek Generating Station, Unit 1. The amendment consisted of changes to the RFOL in response to your application dated November 4, 2020, as supplemented by letter dated May 24, 2021 (ADAMS Accession Nos. ML20310A201 and ML21144A182, respectively).

The amendment changed the corporate name for the owner licensee names for Kansas Gas and Electric Company to Evergy Kansas South, Inc., and Kansas City Power & Light Company to Evergy Metro, Inc., in addition to other editorial corrections.

Subsequent to issuance of the amendment, the Wolf Creek Nuclear Operating Corporation staff informed the NRC of an administrative error on RFOL page 3. Specifically, the amended license page was missing a closing parenthesis on the fourth line, after the first word "Company," in paragraph 2.A.

The NRC staff determined that the error was inadvertently introduced during the preparation of the license amendment and is entirely administrative in nature. The enclosure to this letter contains revised RFOL page 3. The correction does not change any of the conclusions in the safety evaluation associated with the amendment and does not affect the associated notice to the public. Please replace RFOL page 3 to Amendment No. 229 with the corrected enclosed page.

C. Reasoner
