**SUBJECT: NRC TRANSMITTAL OF THE DRAFT SAFETY EVALUATION FOR THE PWR OWNERS GROUP TOPICAL REPORT PWROG-20016-P/NP, REVISION 0, "PWROG-REGULATORY RELAXATION FOR PWR LOOSE-PART-DETECTION SYSTEMS"**

Dear Mr. Nowinowski:

By letter dated August 26, 2020, (Agencywide Documents Access and Management System Accession (ADAMS) No. ML20246G463), the Pressurized Water Reactor Owners Group (PWROG) submitted Topical Report PWROG-20016, Revision 0, "PWROG-Regulatory Relaxation For PWR Loose-Part-Detection Systems," to the U.S. Nuclear Regulatory Commission (NRC) for NRC staff review and approval.

A copy of the draft Safety Evaluation (SE) has been placed in the box.com folder for your review. The draft SE is being provided for an accuracy, clarity, and proprietary information review. If PWROG provides comments on any areas, the NRC staff will exercise its discretion on whether to address those comments. Pursuant to Section 2.390 of Title 10 of the *Code of Federal Regulations* (10 CFR), if you believe that any information in the draft SE is proprietary, PWROG should identify any such information line-by-line and define the basis pursuant to the criteria of 10 CFR 2.390. Use double brackets and yellow highlight to identify any **[[proprietary information]]**. After 10 working days, the draft SE will be placed in ADAMS.

Your comments on the draft SE must be provided by letter from an authorized individual. In addition, please provide an electronic redline/strikeout Microsoft Word version of the SE either via email or the box.com folder. To help expedite NRC staff's response to comments it would be helpful if PWROG provides a comment table with the formal transmittal in a separate Microsoft Word document similar to the attached file with the following titled columns: Comment No., Page No., Line No., and Comment Type (if comments other than proprietary information are provided (i.e., clarity, accuracy)), Suggested Revision, and a blank column for NRC Disposition. Please be informed that PWROG can provide its comments in any format that it chooses. The final SE will be issued after making any necessary changes addressed in the table.

At this stage of the process, the NRC staff has completed its technical review of the submitted information and will not entertain new technical arguments. The NRC staff's conclusions and conditions will not change unless new information is provided that was not available during our review. If PWROG would like to discuss the draft SE in detail, NRC staff can set up a noticed meeting that can be closed if proprietary information needs to be discussed. Both this email and the draft SE will be placed in ADAMS as Official Agency Records. The draft SE is declared as nonpublic because it may contain pre-decisional information until it is declared final. This email has been declared publicly available in ADAMS.

If you have any questions, please feel free to contact me at 301-415-1186 or by email at [leslie.fields@nrc.gov](mailto:leslie.fields@nrc.gov).

Sincerely,

*Leslie C. Fields,*

US NRC Senior Project Manager
