**Subject:** U.S. Environmental Protection Agency notices the receipt of NRC's Final Environmental Impact Statement for Interim Storage Partners, LLC's license application  
**Date:** Friday, August 13, 2021 11:03:00 AM

---

The U.S. Environmental Protection Agency (EPA) has published a notice in the *Federal Register* confirming its receipt of the U.S. Nuclear Regulatory Commission's (NRC's) Final Environmental Impact Statement (FEIS) for the Interim Storage Partners, LLC license application for a consolidated interim storage facility (CISF) for spent nuclear fuel and Greater Than Class C radioactive waste in Andrews County, Texas. The EPA's notice is accessible using the following link:  
<https://www.federalregister.gov/documents/2021/08/13/2021-17325/environmental-impact-statements-notice-of-availability>.

The NRC staff made the FEIS publicly available on July 29, 2021. The FEIS is accessible using the following direct link: <https://www.nrc.gov/docs/ML2120/ML21209A955.pdf>, and from the NRC public webpage for the ISP CISF application at <https://www.nrc.gov/waste/spent-fuel-storage/cis/waste-control-specialist.html>.

An NRC licensing decision concerning the proposed CISF is expected by the end of September 2021. A licensing decision cannot be made until 30 days after the publication of EPA's *Federal Register* notice.

If you have any questions about this matter, I can be reached at [James.Park@nrc.gov](mailto:James.Park@nrc.gov) or by phone at 301-415-6954.

Thank you,

James Park, Project Manager  
U.S. Nuclear Regulatory Commission
