

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

September 24, 2021

Mr. Robert Coffey  
Vice President, Nuclear and  
Chief Nuclear Officer  
Florida Power & Light Company  
700 Universe Boulevard  
Mail Stop: EX/JB  
June Beach, FL 33408

SUBJECT: ST. LUCIE PLANT, UNITS 1 AND 2 – SUBSEQUENT LICENSE RENEWAL  
APPLICATION ONLINE REFERENCE PORTAL

Dear Mr. Coffey:

By letter dated August 3, 2021 (Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML21215A314) Florida Power & Light Company (FPL or the applicant) submitted an application for the subsequent license renewal of Renewed Facility Operating License Nos. DPR-67 and NPF-16 for the St. Lucie Plant, Units 1 and 2 (St. Lucie) to the U.S. Nuclear Regulatory Commission (NRC).

The NRC staff continues to seek approaches to improve efficiency and support an effective review. One method to increase efficiency of the NRC staff's review of the subsequent license renewal application (SLRA) is the use of an online reference portal that will allow the NRC staff and associated contractors limited, read-only access to the documents and other reference materials cited in the SLRA or in references cited therein. In cases where the NRC staff identifies documents as necessary to support its determination in the safety evaluation report, or its environmental impact statement, the NRC staff will request that FPL submit those documents on the docket.

The use of the online reference portal will be in accordance with the following restrictions:

- The online reference portal will be password-protected, and passwords will be distributed only to the NRC staff and contractors directly involved in the St. Lucie SLRA review on a need-to-know basis.
- The online reference portal will not support any printing, saving, or downloading functions.
- The NRC staff and contractors who are granted access to the online reference portal will be informed of the conditions related to the use of the online reference portal by NRC project managers.
- The conditions associated with the online reference portal will be maintained throughout its use during the St. Lucie SLRA review process.

- Documents posted to the online reference portal will be limited to basis and other reference material cited in the SLRA, in support of staff's audit of the information in the SLRA, and other documents as agreed upon by FPL and the NRC management, and
- The NRC staff requests FPL make the portal accessible to the staff and its contractors as soon as possible. At some time near the end of the St. Lucie SLRA review, NRC management and FPL will agree to a date to close the portal.

If you have any questions on this matter, please contact Lois James by telephone at 301-415-3306 or via e-mail at [Lois.James@nrc.gov](mailto:Lois.James@nrc.gov).

Sincerely,

*/RA/*

Lauren K. Gibson, Chief  
License Renewal Projects Branch  
Division of New and Renewed Licenses  
Office of Nuclear Reactor Regulation
