---

Mr. Pignatello,

The Form 313 requesting renewal of your NRC License No. 06-03754-01 was received. However, because 1) it has been 10 years since the license was updated; 2) our guidance revised in 2018; and 3) the license will be in effect for the next 15 years, we request that you submit a complete application using the current guidance in NUREG-1556, Volume 7 for research and development licenses. Here is a link to that guidance:

<https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v7/index.html>

Please pay particular attention to Chapter 8, and provide the information required at the end of each section where it states "Response from Applicant". Also, you may use Appendix B if preferred. Your response may be a pdf document, signed by a management representative, attached to an email to me. We usually request a response within 30 days, so if it will take you longer than that to complete the renewal application, let me know so we can work out a due date.

Thank you for your attention in this matter. Please contact me if you have questions. Email is best because my voice mail does not always work properly.

Betsy
