**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment application; withdrawal by applicant.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Exelon Generation Company, LLC (Exelon, the licensee) to withdraw its application dated October 29, 2020, for proposed amendments to Renewed Facility Operating License Nos. DPR-19 and DPR-25 for Dresden Nuclear Power Station, Units 2 and 3 (Dresden), respectively. The proposed amendments would have made changes to the Dresden licenses and technical specifications (TSs) to reflect the permanent cessation of reactor operations and permanent defueling of the reactors.

**SUPPLEMENTARY INFORMATION:**

The NRC has granted the request of Exelon to withdraw its application dated October 29, 2020 (ADAMS Accession No. ML20303A313) for proposed amendments to Renewed Facility Operating License Nos. DPR-19 and DPR-25 for Dresden, Units 2 and 3, respectively, which are located in Grundy County, Illinois. Exelon is the licensee that owns and operates Dresden. The proposed amendments would have changed the Dresden TSs to permit changes in plant operations when the plants are permanently shut down and defueled. Specifically, the proposed amendments would have revised the Dresden renewed facility operating licenses and TSs following the permanent cessation of power operations to reflect the post-shutdown and permanently defueled condition of the units. The proposed amendments would have eliminated TS requirements and license conditions that would not have been applicable once Dresden

ceased power operations and could no longer place fuel in the reactor vessels. The proposed amendments would have also eliminated obsolete license conditions. Additionally, the proposed amendments would have revised several license conditions and TS requirements, including limiting conditions for operation, usage rules, definitions, surveillance requirements, and administrative controls. The licensing bases for Dresden, including the design bases accident analysis, would have also been revised.

The Commission previously issued a proposed finding that the proposed amendments involve no significant hazards consideration published in the *Federal Register* on January 26, 2021 (86 FR 7117). However, by letter dated September 15, 2021 (ADAMS Accession No. ML21258A281), Exelon requested to withdraw the proposed amendments.

Dated: September 28, 2021.
