

**NUCLEAR REGULATORY COMMISSION**

**[Docket No. 70-1151; NRC-2015-0039]**

**Westinghouse Electric Company, LLC**

**Columbia Fuel Fabrication Facility**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Draft environmental impact statement; reopening of comment period.

**SUMMARY:** On July 30, 2021, the U.S. Nuclear Regulatory Commission (NRC) issued a draft Environmental Impact Statement (EIS) for Westinghouse Electric Company, LLC's (WEC's) license renewal application to continue to operate its Columbia Fuel Fabrication Facility (CFFF) for an additional 40 years. The public comment period for the draft EIS opened on August 6 and closed on September 20, 2021. The NRC has decided to re-open the public comment period until November 19, 2021 to allow more time for the public to submit comments. The CFFF is located in Hopkins, South Carolina, and manufactures nuclear fuel assemblies for commercial nuclear power plants. The WEC's license renewal request, if granted as proposed, would allow the CFFF to continue to be a source of nuclear fuel for commercial nuclear power plants for 40 years from the date the NRC approves the renewal.

**DATES:** The comment period for the document published on August 6, 2021 (86 FR 43276) has been reopened. Comments should be filed no later than November 19, 2021. Comments received after this date will be considered, if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

## II. Discussion

On August 6, 2021, the NRC issued for public comment the draft EIS for WEC's license renewal application, which includes the NRC staff's analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. Based on the NRC staff's (i) review of the license renewal application request, which includes the environmental report, supplemental documents, and the licensee's responses to the NRC staff's requests for additional information; (ii) consultation with federal, state, and tribal agencies and input from other stakeholders; and (iii) independent review as documented in the assessments summarized in the draft EIS, the NRC staff has concluded that the proposed action would result in small impacts on all

resource areas except for groundwater resources for which the impacts would be small to moderate.

The public comment period closed on September 20, 2021 (86 FR 43276). The NRC received requests from members of the public and state-elected officials to extend the comment period. After considering these requests, the NRC has decided to re-open the comment period to allow more time for the public to submit comments on the draft EIS. Comments should be submitted by November 19, 2021, to ensure consideration.
