Subject: [External_Sender] Westinghouse Request to Pollute Water, Ground, Air and People

Dear Madam/Sir:

I want to voice my strong opposition to Westinghouse's request to allow 40 years of use and discharge into the environment of highly dangerous, radioactive and polluting substances which pose a risk of harm to workers, neighbors and our environment.

Look at what is happening in the world - fires, storms, air quality, flooding, heatwaves, etc. and do you want to contribute to making things worse. Can you look your children and their grandchildren's grandchildren in the eye and say I did no harm. You can only do so if you vote NO. Please vote no as our lives and future lives depend on you doing so.
