This is all we have listed for License Condition 10:

10. Licensed material may be used or stored at the licensee's facilities located at 1650 Cowles Street, Fairbanks, Alaska, 99701

You can send an email to Carol.Hill@nrc.gov and inquire about the other two letters.

We are closing the Nuclear Medicine area at the main hospital. We still have the other 2 areas of use on our license (the heart center and the imaging area.)

We are moving all of our services to the existing area at the imaging center. This area has a restricted area (hot lab) that is currently on our license. All of our radioactive material that was stored at the main hospital will now be stored at the imaging center.

I sent the other 2 amendments to your email. Do I need to send them to another email?

Hi,

I just called again. I'm only assigned the action associated with the letter dated June 21, 2021. You're requesting the removal of the use and restricted areas associated with the main hospital area.

It's a bit confusing. Are you terminating the entire license? If not, where will you use and store radioactive material, if you're requesting to remove restricted areas associated with the mail hospital.

Thanks

Thank you so much for the message.

The reason I messaged you was to make sure that you received the 2 additional amendment requests. (This was the first time that I used email instead for FedEx.)

I sent you 2 amendments; one on 8/31 to request an additional AU to our license, one to request a change in the RSO on 9/2.

I was also interested in finding out the status of the amendment that I sent via FedEx in July 2021. It was for decommissioning of an area. I am getting questions from my management as to when it will be ready for remodel. I have told them that I need to hear from the NRC stating that it is OK to release the area.

Please email or call me with any questions or concerns.

Thank you so much for your time.

Michelle,

Ms. Hanchett from Foundation Health in Alaska called me a few weeks back with a question about a pending license amendment they requested (License No. 5—13648-01) and let me know they had an additional request for the amendment. I looked it up and it appears you were assigned the amendment. I gave her your contact info, but she called this morning and said she hasn't been able to get ahold of you. Maybe there was a typo in your email or something. I cc'ed her on this email in

case that is what happened so that yall can connect.

Thanks,
